***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: The applicant has claimed an isolated nucleic acid molecule encoding a protein having amino acid sequence of SEQ ID NO: 2, a vector comprising said nucleic acid molecule and a transformed host cell comprises said nucleic acid molecule. The prior art does not teach the SEQ ID NO: 2. Thus, Applicant's arguments and amendments to the claims are sufficient to overcome the rejections of record. A standard search did not produce any prior art that suggests or teaches the claimed invention. The claimed invention is novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
